[Portfolio](#)

Upcoming graduate from Universitas Multimedia Nusantara with proven expertise in transforming complex data into strategic insights by leveraging Artificial Intelligence integration. I have built a strong foundation in data processing, BI dashboard development, and Machine Learning modeling. With hands-on experience designing intelligent workflow automation architectures, I am eager to optimize data pipelines and create scalable digital innovations that drive efficient decision-making.

Internship Experience

AI Product Development

PT Telekomunikasi Selular (Telkomsel) | Jakarta, Indonesia

Aug 2025 - Nov 2025

4 month

- Explored and developed an n8n-based Ads Generation Automation system that streamlined digital ad content creation and automated end-to-end publication to Facebook, Instagram, and X, utilizing Telegram, Gemini API, and Meta Graph API integrations.
- Implemented a real-time monitoring and error handling system using Grafana and Prometheus, enhancing workflow performance visibility and reducing downtime.

Data Analyst

Kementerian Keuangan RI | Jakarta, Indonesia

Feb 2025 - Jun 2025

5 month

- Processed and standardized the Regional Budget (2021-2025) and Realizations datasets using Python (Pandas), enhancing data quality and improving processing efficiency.
- Designed and implemented an interactive Microsoft Power BI dashboard featuring spatial maps of Indonesia, accelerating fiscal trend analysis.
- Developed a Hybrid NLP-based text classification model using PyTorch and IndoBERT to automate and streamline the validation of cross-ministerial data relationships.
- Deployed Machine Learning models into interactive Streamlit web applications, enabling immediate end-user access and streamlined utilization.

Education

Universitas Multimedia Nusantara

Information System

2022 - 2026

Skills

Hard Skills

Data Analytics & Visualization, AI & Machine Learning, Automation & Integration

Soft Skills

Analytical Thinking, Problem-Solving & Troubleshooting, Adaptability & Continuous Learning

Languages

- Indonesian | Native
- English | Professional

Certification

- Certified International Specialist in Data Visualization (CISDV) | PASAS Institute 2025
- Statistic using R for Data Science | DQLab 2023
- Fundamental SQL | DQLab 2023
